

GRADE SCHOOL STATE DUALS F.A.Q.

The OAC's rule for Community vs All Star Team is as follows.

Community Team = 75% or more of wrestlers are from the community (attend the Feeder Schools or live in that city). A maximum of 25% of the wrestlers may attend another feeder school or live outside of the community.

All Star Team = More than 25% of the wrestlers attend different feeder schools or community

Example: Team ABC has 50 wrestlers within their club. They have 10 wrestlers who do not attend their feeder school system. Since they only have 20% of their wrestlers outside of their community, they would be considered a Community Team, not an All-Star Team. Their H.S Wrestling program is Division 1, So they would be an OAC Division 1 (Class AAA) Community Team.

There are 2 separate teams and scores kept. So, there will be a 10u/D3 Dual tournament and a 12u/D4 Dual tournament. Both tournaments will take place on the same day.
